## DEDICATION

*This book is for the Class of 1988, that we may capture a handful of the memories the past four years have given us. It is meant to help us preserve what we do not want to forget: our friendship, our ideals, and our faith in ourselves and each other. Our medical education has been full of life, love, hard work, and difficult decisions that will forever touch our future. When we page through this book in the coming years, as time dims what is now so vivid, may we again see ourselves as we are now, and measure our progress.*

*Many thanks to the Class of 1988.  
Congratulations on your achievements!*

*Many thanks also to the talented faculty who have so generously shared their knowlege with us, and to our patients who taught the things that are not to be found in textbooks.*

# HIPPOCRATIC OATH

"I swear by Apollo the physician, by Aesculapius, Hygeia, and Panacea, and I take to witness all the gods, all the goddesses to keep according to my ability and my judgement the following Oath:

"To consider dear to me as my parents him who taught me this art; to live in common with him and if necessary to share my goods with him; to look upon his children as my own brothers, to teach them this art if they so desire without fee or written promise; to impart to my sons and the sons of the master who taught me and the disciples who have enrolled themselves and have agreed to the rules of the profession, but to these alone, the precepts and the instruction. I will prescribe regimen for the good of my patients according to my ability and my judgement and never do harm to anyone. To please no one will I prescribe a deadly drug, nor give advice which may cause his death. Nor will I give a woman a pessary to procure abortion. But I will preserve the purity of my life and my art. I will not cut for stone, even for patients in whom the disease is manifest; I will leave this operation to be performed by practioners "specialists in this art". In every house where I come, I will enter only for the good of my patients, keeping myself far form all intentional ill-doing and all seduction, and especialy from the pleasures of love with women or with men, be they free or slaves. All that may come to my knowledge in the exercise of my profession or outside of my profession or in daily commerce with men, which ought not to be spread abroad, I will keep secret and will never reveal. If I keep this oath faithfully, may I enjoy my life and practice my art, respected by all men and in all times; but if I swerve from it or violate it, may the reverse be my lot."

"The doing right, the acting up to principle, may sometimes seem to you to be inexpedient . . . but this principle of conduct will build up a character founded on the rock which nothing can shake; and let me assure you that it is unwise and always wrong for a man to have enmity in his breast between himself and his conscience. When principle is involved, be deaf to expediency. It is a dangerous word to all classes of men. I would, if I could, teach you almost to hate it."

The first step is knowing exactly what you want. If you have only a vague idea of where you are going, it's easy to give up at the first sign of a problem. You must have a clear goal, an intensive desire to reach it, and a definite plan that shows the path that must be followed.

## Class of '88

The College of Medicine Class of '88 has 95 matriculated students. They were chosen from a pool of 2,840 applicants.

Pennsylvania residents make up 87 percent of those finally chosen. The remaining 13 percent are from out-of-state. The class includes 63 men, 32 women and 10 minority students. Approximately half reside in communities of less than 20,000, in 29 separate counties across Pennsylvania.

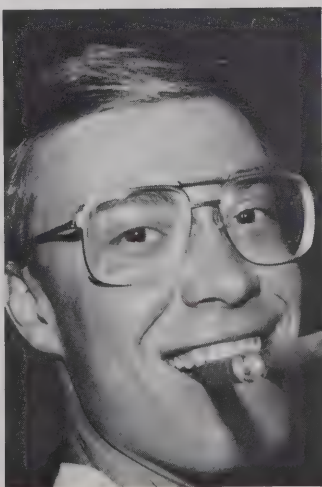

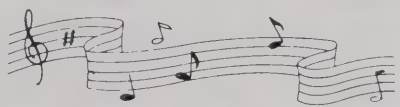

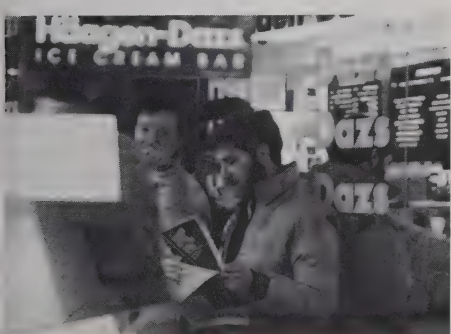

The largest undergraduate academic major field represented is science with 86 percent of the students majoring in biology, chemistry, pre-med, engineering, biochemistry and math. There are 14 percent non-science majors from economics, English, psychology music and education.

Eight students have pursued their Master's degree and one will receive his Ph.D. degree in Biochemistry this fall.

The mean Grade Point Average of the class is 3.6. The mean Medical College Admission Test scores are 10 in all sub-test areas.

SMALL FOR EFFICIENCY . . .  
LARGE FOR LUXURY

Within ROSEDALE's two- and three-story buildings are housed 160 garden apartments designed for the economy-minded as well as those desiring more spacious quarters.

There are three different one-bedroom styles to choose from—all having fully-equipped G.E. kitchens with ample cabinets, individually controlled heating/air conditioning, fashionable wall-to-wall carpeting and spacious closets.

ROSEDALE's two-bedroom apartment is one of the largest available in the area with 1,070 square feet of luxurious living space. Designed with "roommates" in mind, it features two full baths and an extraordinary amount of closet space!

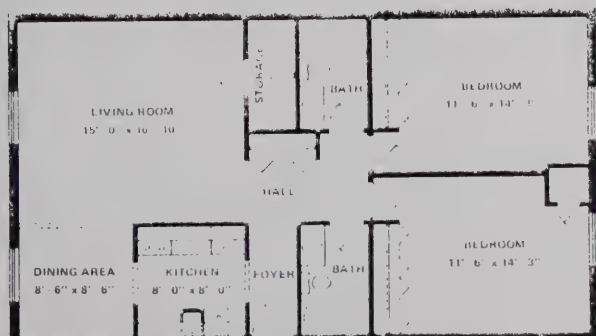

Quality construction, including installation of "sound board" in the flooring, and solid masonry walls between each apartment afford the resident the utmost in privacy, comfort and safety.

close to everything  
yet far from the ordinary*

**"D" STYLE - Two Bedrooms**

In addition to these features ROSEDALE offers a convenient and well-maintained laundry facility, centrally located and open around-the clock for "residents only." Additional storage areas are available on a first come, first served basis. Accommodating multi-car families are 300 parking spaces throughout the community.

Because ROSEDALE is a locally owned and managed community, you can expect the finest in professional management; quality building maintenance (24 hour emergency maintenance service), and meticulously manicured grounds—all at no additional cost to you.

With these features you can enjoy your leisure hours and experience the pleasure of a carefree lifestyle at ROSEDALE

## TO THE CLASS OF 1988:

"Medicine is a most difficult art to acquire. All the college can do is to teach the student the principles, based on facts in science, and give him good methods of work. These simply start him in the right direction; they do not make him a good practitioner - that is his own affair."

- Sir William Osler

# Rebuilding Independence

Independence . . . to walk, move about, work or play without having to rely on someone else for help is something that most of us take for granted. For some, independence isn't so easy. The ability to walk, even turn a page in a magazine is a difficult task.

Our approach involves comprehensive medical rehabilitation. We help our patients reach their physical, social and psychological potential.

CONGRATULATIONS TO THE CLASS OF 1988!

## *At St. Francis Health System, your health is our business.*

IT'S COMFORTING TO KNOW THAT when you're sick someone nearby is in the business of caring for you.

St. Francis Medical Center, a component of St. Francis Health System, provides state-of-the-art medical care. Located four miles from downtown Pittsburgh, the hospital offers more than 200 beds in a separate psychiatric facility and the largest Department of Rehabilitation Medicine between Philadelphia and Chicago. New facilities for Emergency and Outpatient Services (including same day surgery) are strengths of its medical-surgical section. A joint venture of nine area hospitals for home care originated at St. Francis. Its Division of Cardiology is the only local program complete with every available diagnostic tool including heart catheterization. As the first hospital in Pittsburgh to treat cancer with a betatron, our oncology program still ranks among the best in the area. The Department of Diagnostic Radiology was the first in the city to add a CT scanner to its battery of equipment. Our ophthalmologists were among the first nationally to implant intraocular lens. The first endourology service in the city for the

removal of kidney stones without surgery was opened here. The Chemical Dependency Program is one of the most comprehensive in the nation, treating mothers-to-be, senior citizens, adolescents and adults. St. Francis opened the first Premenstrual Syndrome (PMS) unit in Pittsburgh and an Eating Disorders Unit for adults with anorexia, bulimia and obesity.

The largest medical center in Western Pennsylvania, St. Francis is a teaching hospital with eight residency programs:

- Transitional Program
- Internal Medicine
- Diagnostic Radiology
- Psychiatry
- Oral and Maxillofacial Surgery
- Ophthalmology
- Physical Medicine and Rehabilitation
- A Fellowship in Cardiology

St. Francis also conducts accredited schools for registered nurses, licensed practical nurses, respiratory care technicians and nurse anesthetists.
